Wireless Camera and Bug Detector

Make sure your private conversations stay private with this mini RF bug detector. The super sensitive broad band tuner will detect radio transmissions from bugging equipment operating between 1Mhz & 6,500Mhz (6.5Ghz) and alert you to them via a three stage LED indicator and beep alarm. The faster the beep, the stronger the signal being detected. The unit can also be operated in silent mode with the built-in vibrator or by using the mini earphone supplied.

Other features include an RF sensitivity control, a 'battery low' warning light and handy belt clip. Measures 48 (W) x 93 (H) x 17 (D)mm & weighs just 90 grams, and powered via Li-Po rechargeable battery.

Package includes earphones, battery, charger and manual

\$199
(BugDet01)
