

# **CMS-PC Installation Guide—CCTVMODWIFI**

### Installing CMS application on a PC

- 1. Copy the files in the included CD to the HDD in your PC.
- 2. Open File Explorer and go to the copied folder.
- 3. Install General\_CMS\_V3.0.exe by double-clicking on the icon.

4. CMS icon will appear on your desktop. Double-click on the icon to launch the program.

5. Enter the username (default: super) and the password (default: <blank>) and click on Login.

NOTE: The username and the password here are for CMS login, not for the camera.

#### Adding a camera to the list

1. Make sure the camera and your PC are connected to the same wired or WiFi network. You also need Camera name, IP address, User name and Password.

(Refer to Quick Start Guide for setting up network connection of the camera.)

2. Click on 'Sytem' and select 'Device manager'.
