As Used In Emergency And Taxi Vehicles

## \$1,690 DIY Installation

**OR \$2,690 Fully Installed**

**Kit Includes:**

- 1 x Outdoor Camera (CCTVODDN)
- 1 x Cable Kit, 1 x TFT Monitor,
- 1 x 1000 GB Hard Drive,
- 1 x NESS GPS4 4 Channel Mobile DVR.

The benefits of this package are vehicle security, internal control, Work Cover and Public Liability. These problems include theft of driver earnings or hold ups, merchandise theft, short change issues and false insurance claims.

This 4 Channel Vehicle Mobile Digital Recorder with GPS Receiving Unit is the ideal product for a number of applications, including:

- Monitoring driver behaviour
- Proving deliveries have been made
- Providing video evidence in the event of an accident.
- GPS Vehicle Tracking

The package includes 1 high res colour camera and provision to allow you to connect up to 3 additional cameras to the device (For recording views such as front view, rear view, driver view, passenger/cargo view). The recorded footage is stored on a 1TB removable 2.5" Hard Drive, and can be backed up via USB.

The functionality of the unit can be increased through the use of optional accessories, such as a Driver Action Detecting Box (To provide notifications when turn signals are used, when brakes are applied, when doors are opened and other similar functions)

**ADDITIONAL CAMERA AND 10M CABLE LOOM...\$299**
