OR \$79 PER MONTH
 Flexirent 48 Month Business Lease
 Conditions Apply

Pdeal048. Also Available in 8 and 16 Camera Packages.

The benefits of this package are store security, internal control, Workcover and Public Liability. These problems include merchandise theft, till skimming, bag snatches, short change issues and false insurance claims. This system will work on most Boost Juice Bars PCs and will also allow the franchisee to remotely view their store from home, over the internet.

 We have already implemented this system at Bankstown, Bathurst St (Sydney), Coogee, Cronulla, Eatgardens, Hunter St (Sydney), Macarthur Square, Manly Corso, Maroubra and Marrickville all of which report a positive impact on store security.

If you have had one too many stock variances at stocktake or feel your cash flow should be better than it currently is, you can now take a positive step in controlling this problem. Please contact us for more information.
