

You can backup the video files to external storage through setup.

Note: The storage must be installed before starting the file backup. If the backup is terminated, the files that are already backed up can playback individually.

Picture 4.3 Backup

【Detect】 Detect the storage connected with the DVR such as hard disk or universal disk.

【Erase】 Choose the file to delete and click erase to delete the file.

【Stop】 Stop the backup.

【Backup】 Click backup and select the backup file/s according to the type, channel and time.

Picture 4.4 File Backup

Remove: Clear the file information.

Add: Add the date and time details of the file/s you want to back up

Start/pause: Click the play button to start the backup and click the pause button to stop the backup.

Cancel: During backup you can exit the page layout to carry out other functions.
